Sexual Assault Forensic Examiner Program

# Sexual Assault Forensic Examiner Program

CONTINUING NURSING EDUCATION

**Program Director: Barbra Bachmeier,  
JD, MSN, RN, NP-C**

Will you be their advocate?

This new program adheres to the International Association of Forensic Nurses' educational guidelines for didactic coursework in adolescent/adult SANE.

The 14 modules in SAFE provide the fundamental information and resources to develop a clinical knowledge base when caring for patients of sexual violence. The content is presented by subject matter experts. Pre- and post-assessment tests are included.

With sexual violence an ever-present reality, this online program prepares forensic and nurse examiners with the tools and knowledge to care for and treat sexual assault victims. Become their advocate!

To purchase this program, visit
